# PRIME CORE

Powering Performance. Driving Trust.

## Reliable Parts. Stronger Performance.

High Quality Tractor Parts  
for Every Field, Every Need.

## PISTON

Prime Core pistons are precision engineered using high grade aluminum alloy for superior strength, heat resistance and durability. Designed to deliver optimal compression, reduced friction and long engine life.

### KEY FEATURES

- ✓ High Strength Aluminum Alloy
- ✓ Excellent Heat Resistance
- ✓ Precision Machined for Perfect Fit
- ✓ Better Compression & Power Output
- ✓ Reduced Friction & Wear
- ✓ Long Service Life

| SUITABLE FOR           |   |
|------------------------|---|
| <b>Mahindra</b>        | 265 DI, 275 DI TU, 375 DI, 475 DI, 575 DI, 605 DI, Arjun 605, Yuvo 415 DI             |

## PISTON RING

Prime Core piston rings are made from high quality alloy steel for excellent sealing, wear resistance and durability. Designed to provide perfect fit, reduce oil consumption and enhance engine performance.

### KEY FEATURES

- ✓ High Quality Alloy Steel
- ✓ Excellent Wear & Heat Resistance
- ✓ Perfect Sealing & Compression
- ✓ Reduces Oil Consumption
- ✓ Long Lasting & Durable
- ✓ Improves Engine Performance

| SUITABLE FOR           |   |

## CYLINDER LINER

Prime Core cylinder liners are manufactured from high grade cast iron for excellent wear resistance, strength and durability. Precision machined for perfect fit and long engine life.

### KEY FEATURES

- ✓ High Quality Cast Iron
- ✓ Excellent Wear & Heat Resistance
- ✓ Precision Machined for Perfect Fit
- ✓ Long Engine Life
- ✓ Corrosion Resistant

### SUITABLE FOR

| <b>Mahindra</b>        | 265 DI, 275 DI TU, 375 DI, 475 DI, 575 DI, 605 DI, Arjun 605, Yuvo 415 DI             |

## ENGINE VALVE

Prime Core engine valves are precision engineered for optimal performance. Manufactured with high quality steel for superior strength, wear resistance and long service life.

### KEY FEATURES

- ✓ High Quality Steel
- ✓ High Strength & Durability
- ✓ Wear & Heat Resistant
- ✓ Precision Ground
- ✓ Long Service Life

### SUITABLE FOR

| <b>Mahindra</b>        | 265 DI, 275 DI TU, 375 DI, 475 DI, 575 DI, 605 DI, Arjun 605, Yuvo 415 DI                    |

## CONNECTING ROD

Prime Core connecting rods are precision manufactured from high grade forged steel for superior strength, fatigue resistance and long service life. Designed to withstand high engine loads and deliver reliable performance in all conditions.

### KEY FEATURES

- ✓ High Strength Forged Steel
- ✓ Excellent Fatigue & Wear Resistance
- ✓ Precision Machined for Perfect Fit
- ✓ Withstands High Engine Loads
- ✓ Long Service Life

### SUITABLE FOR

|                        |   |

## CRANKSHAFT

Prime Core crankshafts are manufactured from high quality forged steel and precision machined for maximum strength, durability and smooth performance. Engineered to ensure perfect balance and long lasting reliability.

### KEY FEATURES

- ✓ High Quality Forged Steel
- ✓ Precision Machined & Balanced
- ✓ High Strength & Durability
- ✓ Wear & Impact Resistant
- ✓ Long Service Life

### SUITABLE FOR

|                        |   |
|------------------------|---|
| <b>Mahindra</b>        | 265 DI, 275 DI TU, 375 DI, 475 DI, 575 DI, 605 DI, Arjun 605, Yuvo 415 DI             |
| <b>Sonalika</b>        | DI 35 Rx, DI 42 Sikander, DI 47, DI 60 Rx, GT 20, Tiger 50, Worldtrac 60, Sikander 60 |

## PRESSURE PLATE

Prime Core pressure plates are built to provide consistent clamping force, ensuring smooth power transmission and longer clutch life.

Manufactured from high grade materials for strength and durability.

### KEY FEATURES

- ✓ High Quality Steel Construction
- ✓ Consistent Clamping Pressure
- ✓ Heat & Wear Resistant
- ✓ Precision Balanced
- ✓ Long Service Life

# PRIME CORE

Powering Performance. Driving Trust.

## Reliable Parts. Stronger Performance.

High Quality Tractor Parts  
for Every Field, Every Need.

## BRAKE DRUM

Prime Core brake drums are precision machined for perfect fit, balanced performance and long life. Manufactured from high quality cast iron for excellent heat dissipation, durability and consistent braking power.

### KEY FEATURES

- High Quality Cast Iron Construction
- Precision Machined for Perfect Fit
- Excellent Heat Dissipation
- High Wear Resistance
- Long Service Life

### SUITABLE FOR

## BRAKE SPRINGS

Prime Core brake springs are made from high grade spring steel for maximum strength, elasticity and fatigue resistance. Designed to provide reliable return and hold down force for smooth and safe braking.

### KEY FEATURES

- High Grade Spring Steel
- High Tensile Strength
- Excellent Elasticity & Durability
- Heat Treated for Long Life
- Corrosion Resistant Coating

### SUITABLE FOR

# PRIME CORE

Powering Performance. Driving Trust.

## Reliable Parts. Stronger Performance.

High Quality Tractor Parts  
for Every Field, Every Need.

## STEERING SHAFT

Prime Core steering shafts are precision engineered for smooth torque transmission, durability and steering accuracy. Manufactured from high grade steel with precision machining for long service life and maximum reliability.

### KEY FEATURES

- High Strength Steel Construction
- Precision Balanced for Smooth Operation
- Corrosion & Wear Resistant
- High Torque Transmission
- Long Service Life

## COUNTER SHAFT

Prime Core counter shafts ensure smooth gear meshing and efficient power transfer. Built for high strength, durability and long service life under heavy load conditions.

### KEY FEATURES

- ✓ High Strength Steel Construction
- ✓ Precision Machined for Smooth Operation
- ✓ Efficient Power Transfer
- ✓ Wear & Corrosion Resistant
- ✓ Long Service Life

### SUITABLE FOR

| Brand           | Model            | Configuration | Brand       | Model          | Configuration |
